10 Years of the Transportation Librarians Roundtable

Amanda Wilson, NIH

<http://ntl.bts.gov/networking/roundtable.html>

Audio call-in number: 877-336-1274; Access code: 5759713

To help commemorate the 10th anniversary of the TLR's debut, Amanda Wilson serves as this TLR's speaker. Amanda, who is now head of the National Network Coordinating Office at the National Library of Medicine, played a vital role in planning and launching the TLR in 2007 and -- for most of the past decade -- served as its guiding light.

Amanda will touch upon how the TLR came into existence and how it evolved over the years. She will also reflect on the various changes that have become an integral part of our professional and personal lives since 2007, and how these changes (the ever-growing applications of social media as a key example) have ultimately influenced the content and character of the TLR presentations.

10 Years of the TLR

12 October 2017

Most Enjoyable

Most Surprising

Most Proud

Information sources	Creative approaches to outreach	International priorities and programs	Lessons learned and best practices from broader library and information science community	Future of transportation library community (e.g, TKNs)
Exhibits and Transportation Library Programs	Open forums	Transportation policy, legislation and trends	New research tools	Data management
Value of transportation libraries	Digitization	Cooperative projects	Bibliographic, information and data analysis and visualization	Cataloging, metadata, and taxonomy standards and developments

“Roundtables serve several purposes. They share information about library services such as cataloging, electronic resources, and special collections. They also allow librarians to share best practices about marketing, management, performance measures and advisory committees. They inform the transportation library community about new technologies . . . And, they address some of the pressing issues facing all transportation libraries.”

Lisa Haakon Pogue (2009). “Building a Transportation Library Infrastructure” in Change: Managing It, Surviving It and Thriving on It, Best Practices for Government Libraries

Value of TLRs (from attendee feedback):

Information exchange

Networking

Further improving our communications with each other and therefore our overall impact

The informality

Training without leaving the office

Cost-effectiveness

from [The TLR turns 100!](#) (April 14, 2016) SPEAKERS: Amanda Wilson and Bob Cullen
