## CFS : Stats01 (1993)

[Database Profile](#) [Data Tables](#) [Table Profile](#)

Latest Available Data: 1993

All Rows Shown

Field Name	Description
Origin	Geo. cd for State & Natl.Transportation Analysis Region (NTARS) of origin.
Commodity	Commodity classification code for goods shipped by establishments.
ModeSequence	Mode of transportation sequence code.
Mode	Describes mode of transportation used.
DestGeo	Geo. cd for State & Natl.Transportation Analysis Region (NTARS) of destination.
Strat	Weight (tonnage) and Distance (mileage) stratification code.
Value	The dollar value of the entire shipment.
ValueF	Flag for Value field. This field contains special notes for the corresponding field it flags. Value D denotes figures withheld, - represents zero or less than one unit of measure, S means data doesnot meet sampling standards.
ValuePercent	Percent of total value of commodities shipped.
ValuePercentF	Flag for ValuePercent field. This field contains special notes for the corresponding field it flags. Value D denotes figures withheld, - represents zero or less than one unit of measure, S means data doesnot meet sampling standards.
Weight	The total weight of the entire shipment.
WeightF	Flag for Weight field. This field contains special notes for the corresponding field it flags. Value D denotes figures withheld, - represents zero or less than one unit of measure, S means data doesnot meet sampling standards.
WeightPercent	Percent of total weight of commodities shipped.
WeightPercentF	Flag for WeightPercent field. This field contains special notes for the corresponding field it flags. Value D denotes figures withheld, - represents zero or less than one unit of measure, S means data doesnot meet sampling standards.
WeightDistance	Weight-distance of commodities shipped in million ton-miles.
WeightDistanceF	Flag for WeightDistance field. This field contains special notes for the corresponding field it flags. Value D denotes figures withheld, - represents zero or less than one unit of measure, S means data doesnot meet sampling standards.
WeightDistancePercent	Percent of total weight-distance (ton-miles) of commodities shipped.
WeightDistancePercentF	Flag for WeightDistancePercent field. This field contains special notes for the corresponding field it flags. Value D denotes figures withheld, - represents zero or less than one unit of measure, S means data doesnot meet sampling standards.
AvgDistance	Average miles per shipment.
AvgDistanceF	Flag for AvgDistance field. This field contains special notes for the corresponding field it flags. Value D denotes figures withheld, - represents zero or less than one unit of measure, S means data doesnot meet sampling standards.
