ROSA P: NTL's Repository & Open Science Access Portal

<https://rosap.ntl.bts.gov/>

Featured Content

- Bureau of Transportation Statistics Publications
- USDOT Public Access Collections
- Historic Special Collections

ROSA P is an Open Access Repository

- Access to publications and digital data is free, immediate and permanent
- Content is available for anyone to use, download and distribute
- Indexed by internet search engines (Google, Google Scholar, Bing, Science.gov)

The screenshot shows the ROSA P website interface. At the top, it identifies the United States Department of Transportation, National Transportation Library, and Bureau of Transportation Statistics. The main header features the ROSA P logo and a search bar for ROSA P Collections. A navigation menu includes Home, Collections, Recent Additions, Public Access, Submit Content, Help, and About ROSA P. The main content area has a search section with a dropdown for 'All Collections' and a search button. A featured banner for the 'Transportation Statistics Annual Report 2022' is displayed, along with a 'Learn More' button.

NTL acquires the following types of digital works

- Digital objects provided by the content creators or owners (a digital object is a unit of information, usually a file)
- Digital copies of physical objects, digitized at the request of NTL

NTL collects across all modes of transportation and related disciplines

- Sources of materials include USDOT, state DOTs, local and tribal road agencies, university transportation agencies, and other transportation organizations
- Legacy content is collected if it is of historical or national significance
- ROSA P currently contains about 60,000 digital objects

New Collections in ROSA P

<https://rosap.ntl.bts.gov/browse/collections>

- **Federal Lands**
https://rosap.ntl.bts.gov/collection_fedlands
Published by FHWA Federal Lands Planning Program, these are multi-part studies and management plans for transportation applications relative to activities to and within Federal Lands. For more information on FLH and Federal partners <https://highways.dot.gov/federal-lands/about/partners>.
- **FAA Advisory Circulars**
https://rosap.ntl.bts.gov/collection_faacirculars
The FAA Advisory Circular System was established for the publication of nonregulatory guidance and informational material to the public. FAA Advisories concern how to comply with airworthiness regulations. This collection was published from 1957 to 2000.

Forthcoming Collections in ROSA P

<https://rosap.ntl.bts.gov/browse/collections>

- **National Conferences on Street and Highway Safety** https://rosap.ntl.bts.gov/collection_ncshs
Proceedings from the Committee on Uniform Traffic Regulation meetings held from 1926 to 1938.
- **Federal Committee on Statistical Methodology (FCSM) Statistical Policy Working Papers** Insights and best practices garnered from FCSM members and their agencies across the federal statistical system. For more information about FCSM, see <https://www.fcsm.gov/resources/statistical-policy-working-papers/>
- **Collections in process** Federal Aviation Regulations, Civil Aeronautics Authority Reports, Historic CAB/ USDOT Orders
