Xin Wang, PMP, Systems Librarian

NTL Major Project of Systems

- NTL Repository Upgrade Project

    - The history of NTL Repository
    - NTL Repository 3.0
    - NTL Repository 3.1
        - Goals
        - POP
        - Production Migration

Why should NTL do the NTL Repository (Workroom) 3.1 project in a timely manner?

To save money! The servers are running, the clock is clicking, and we are burning the money every minutes.

To put already developed mission critical platform into production as soon as possible

What are the other benefits of the project?

- IT Modernization of NTL will become the reality.
- More opportunities for serverless data processing, AI, Data Warehouse and Dada analyzing since NTL is in Cloud environment
- Increasing productivity
- Improving CRM (Customer Relationship Management)
